TEAM STANDARDS

Success in baseball is about focusing on the details and controlling what you can control. Our team standards will help you understand what we expect you to control. Coaches will be watching you, when multiple coaches observe the same behavior we will talk to you directly, 2nd time the behavior is observed you will sit out, run individually, or the whole team will run. It's your job to hold yourself and teammates accountable.

1. **Hustle**

We Take the Field Running, No walking anywhere. Hustle on and off the field every time — it shows respect and energy. Practice, pre-game, post-game. If you are unsure if you're supposed to be running, start running, ask questions in the dugout.
